

Product Technical Specifications

Mod. ST

Insulating stool for indoor use

Functionality

Protective accessory used for maneuvers carried out in high voltage equipment and installations up to 66 kV of nominal voltage and voltage work for low voltage. Use outside.

Product Features

- Surface is rough and non-slip.
- High stability.
- High impact resistance.
- High slip resistance.
- Compact connection of the legs.
- Rubber tips are placed under the legs to give it greater adherence to the floor and protection from wear.
- Measurements:
 - Platform: 525 x 525 mm
 - Surface: 575 x 575 mm
 - Maximum height: 305 mm

Mod. ST

Insulating stool for indoor use

Raw Material Features

Stool and legs: **high impact copolymer polypropylene**.

Leg tips: **rubber**.

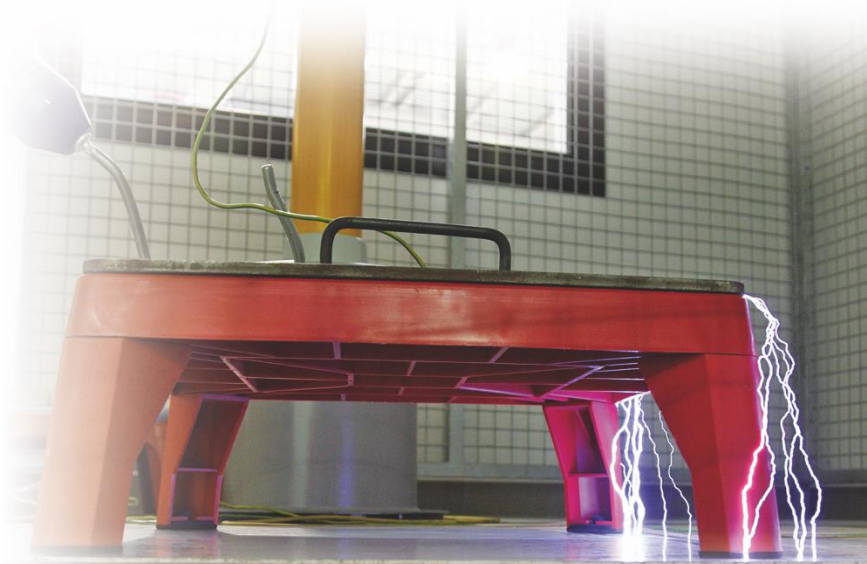

Certified

According to the Standards:

UNE 204001

Electric Features

Ref.	Height (mm)	Class	Working voltage	Net weight (Kg)
ST-36	200	4	36 kV	3,400
ST-45	305	5	45 kV	3,820
ST-66	305	6	66 kV	3,820
