Product Technical Specifications

ECBT-NH

Earthing and short-circuit equipment
– Low voltage electric panels

Functionality

Earthing and short-circuit kit for low-voltage distribution boards. The main reason for their installation is to protect the worker from accidental power-on or return of voltage during repair work.

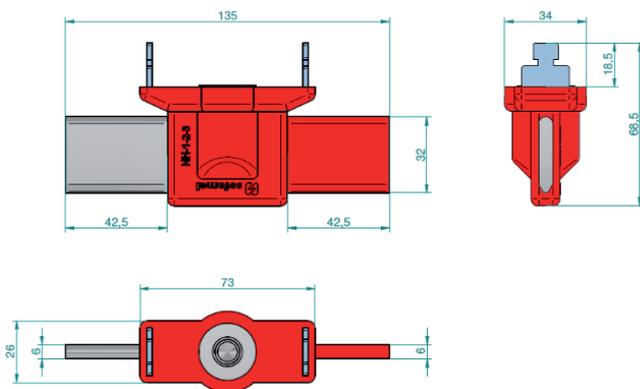

ECBT-NH

Earthing and short-circuit equipment – Low voltage electric panels

Product Features

The NH1 blades are used to ground the electrical panels. These blades make the function of fuses, when connecting the two ends (conductive part and isolated part).

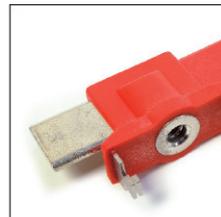

Composed of

- 3 disconnecting and earthing NH1-3 blades.
- 3 copper PVC-insulated cables 25 mm² section and 0.2 - 0.4 - 0.6 m for short circuit of phases.
- 1 copper PVC-insulated cables 25 mm² section and 0.5 m long for earthing.
- 1 insulated pole for placing blades.
- 1 TT-38A earthing lathe.
- 1 plastic case for storage and transport.

Certified

According to the Standard **IEC 61230**.
