Product Technical Specifications

PREMIUM PROFESSIONAL 4- IN-1 SCISSORS. MODEL TS-95

Functionality

The new generation TS-95 scissors are designed to meet the needs of professionals who require a versatile and durable tool. They can cut cables up to 95 mm² and are equipped with multiple functions to facilitate various tasks for electricians.

Cutting Capacity

Up to 95 mm².

Stripping Functions

7 stripping functions (ranging from 0.34 mm² to 6 mm²) in the slots between the handles.

Stripping function for larger cables in the cutting slot.

Crimping Functions

2 crimping functions suitable for terminals and ferrules.

Cutting Functions

3 cutting functions (including a steel wire cutting function), providing versatility at work.

PREMIUM PROFESSIONAL 4-IN-1 SCISSORS.

MOD. TS-95

Product Features

- High-hardness blades for exceptional performance, made from **high-strength stainless steel**, ensuring greater durability and longevity.
- Enhanced grip with ergonomic design for comfortable and secure handling, even during prolonged use.
- Robust construction that withstands the demands of daily use and minimizes user fatigue.
- Premium materials that ensure a long service life and reliable operation.
- Lightweight and strong handles made of impact-resistant plastic. They include a **thermoplastic rubber (TPR)** layer with a non-slip ridge, providing a secure and ergonomic grip that offers comfort, aesthetics, and durability.

Code	Ref.	Max. cutting range	Crimping range	Stripping capacity between handles	Length	Weight
316002	TS-95	95 mm ²	2.5-6 mm ²	0.34-6 mm ² (AWG 22 -10)	204 mm	0.26 Kg
