## Hydraulic heads and pumps

### Hydraulic head 100T

#### 20203 CH-100

- Double-acting hydraulic cylinder can shorten piston reset time.
- Quick coupler for easy disassembly.
- Powered by double acting hydraulic.
- Crimp overhead line ACSR, strain clamps for 110kV and underground cable sleeves for 200kV.
- Include Steel case.

Available dies

#### HD100

Cu/Al up to Ø 76 mm

Steel up to Ø 36 mm

Crimping range

Copper and aluminium terminals		Ø 76 mm			
Steel terminals		Ø 36 mm			
Code	Ref.	Crimping force	Rated pressure	Pump dimensions	Pump weight
413006	CH-100	1000 kN	700 bar	280x180x365 mm	31 Kg
