Product Technical Specifications

Model BH-700

Cod.415000

Pedal Hydraulic Pump

Functionality

Designed to operate hydraulic tools up to 700 bar (70 MPa).

Product Features

Compact dimensions.

Made with lightweight, corrosion-resistant materials.

Stability and practicality ensured by a firm adjustment pedal and a durable anti-slip base.

Equipped with an automatic two-speed system (fast forward without load and slow under load).

Incorporates a system for coupling.

Contains an internal safety valve for automatic pressure relief upon reaching the nominal pressure.

Technical Specifications

Operating pressure up to **700 bar (70 MPa)**.

Low-pressure pump capacity: 2.26 cm³ per cycle.

High-pressure pump capacity: 12.26 cm³ per cycle.

Capable of holding **1000 ml of oil**.

Operates at temperatures ranging from -20°C to +40°C.

Dimensions: 580 x 180 x 210 mm.

Weight: 8.8 kg.

Hydraulic connection: 1/4" female.

Includes a 2-meter flexible hose.
