

Insulating poles / Accessories for poles

30812 U-ESC

Universal-K to broom adapter

Adapter designed to quickly and securely attach a broom to an insulating pole with a Universal-K threaded head. Especially suitable for cleaning and maintenance tasks in railway environments, where carriages or catenary elements may be live.

Ensures a firm connection of the broom to the pole, guaranteeing operator safety and facilitating work at height or in hard-to-reach areas.
