

### 30810 SC-425

#### Curved pruning saw

The SC-425 pruning saw is specially designed for cutting branches at height, a key aspect in the preventive maintenance of overhead electrical networks. It can be attached to any pole with a universal head.

- Metal saw with serrated tip
- Bidirectional cutting teeth

| Code   | Ref.   | Length | Blade thickness | Weight |
|--------|--------|--------|-----------------|--------|
| 625113 | SC-425 | 330 mm | 1,2 mm          | 140 gr |
