635 TESTER PD
Optical & Acoustic

A two-pole voltage tester with phase discriminator, optical signal by LEDs when presence of voltage and continuity test.

Code	Ref.	Box
635205	**TESTER PD**	1

Optical & Acoustic

Technical Details — TESTER PD

- Display — optical 12 LEDs
- Operating panel — finger tip / RCD button
- Measurement range — automatic range
- Voltage range — 6 - 1000V AC/DC, 0 - 400Hz
- Continuity test — 0 - 50k with acoustical signal
- Phase indication — > 100V AC
- Switchable load — Is ~ 30mA ED(DT) = 30 sec.
- Power supply — 2x 1.5V
- Overload category — CAT IV 1000V
- Dimension — 238x70x30mm
- Protection — IP 65
- Weight — 200 g
- Colour — red
- Includes — 2 batteries type AAA LR03
- Supplies, optional — bag
- Total length of the cable — 110cm

3 years manufacturer's warranty.
According to EN 61243-3 standard.
