

D-WATCH

Detector for use in distribution centers
and places with reduced mobility

Medium Voltage - Acoustic

1-10 kV

Acoustic

Additional security element for individual use.

When the operator approaches an electric field between 1kV-10kV and exceeds a distance of approximately 40 cm for 1 kV and 2 meters for 10kV, the detector emits a sound to warn the operator that he is in a dangerous area. The alarm will not stop until the operator moves away from the voltage source. The device is always alert.

Mod. D-WATCH

Personal voltage detector
Medium Voltage - Acoustic

- Use in Distribution / Transformation centers and cells.
- Operating range: between 1kV and 10kV
- Operating frequency: 50 and 60Hz
- Power supply: 1 battery type CR2032
- Supplied in an insulated box that includes the detector and a nylon carrying case.
