Product Technical Specifications

## Modelo OB2

Dielectric compact overboots

### Functionality

The OB2 dielectric overboots provide up to 20 kV protection on the entire boot for more than three minutes.

### Product Features

- With front opening and closing. Easy to use.
- Ideal for personnel who must continually enter and exit hazardous areas.
- Single piece injection moulded construction with integral moulded fastener ensures there are no seams or mounting/fastener holes to leak.
- No metal fasteners or components are used in the construction.
- Heel protection
- Slip resistant sole in blue dielectric compound.
- Fuel and oil resistant sole.
- REACH compliant

Code	Ref.	Size

## Model: OB2

### Dielectric compact overboots

---

#### Maintenance

- Machine washable up to 40°C.
- Service life more than 10 years.

#### Electrical protection

**On all boot covers:** at 20 kV 3 minutes, no damage.

**At 5 kV:** Less than 5mA leakage current.

#### Certificates

Conforms to standards:

**Safety footwear EN ISO 20347: 2012 I SRC FO**

**Footwear with electrical insulation EN 50321-1: 2018 Class 2 AC**

**Dielectric footwear ASTM F1117 (20kV)**

**Personal protective equipment PPE DIR 89/686 / EEC**
