

### 30901 PAT-2/F-600

Earthing and short-circuit equipment for cars. The main aim of installing this item is to protect workers from induced voltage and/or static electricity during maintenance and repair work on electric and hybrid cars.

#### Composed of:

- 2 F-600 insulated clamps.
- 1 16 mm<sup>2</sup> copper cable with PVC insulating sheath (length depending on model).
- 1 bag for transporting and storing the equipment.

**F-600**  
Insulating clamp

Code	Ref.	Length	Maximum working current
657010	PAT-2/F-600/L/01606	6 m	600 A
657020	PAT-2/F-600/L/01607	7 m	
657030	PAT-2/F-600/L/01608	8 m	

\* Depending on availability, the colour of the bag may vary.
