

**TT-38L**  
Earth lathe

### 30901 PAT-TT38L/03515

Earthing and short-circuit equipment for trucks. The main aim of installing this item is to protect workers from induced voltage and/or static electricity during maintenance and repair work on electric and hybrid cars.

**Consists of:**

- 2 T-38L milling earthing lathe.
- 1 15 m copper cable with PVC insulating sheath.
- 1 bag for transporting and storing the equipment.

Code	Ref.	Length	Short circuit current Max. ICC
657040	PAT-TT38L/03515	15 m	9 kA/1s

\* Depending on availability, the colour of the bag may vary.
