Technical Product Specifications

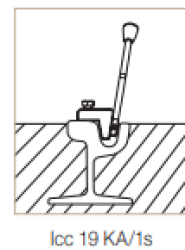

PATF-PDC-TTIR

Unipolar equipment for catenaries

Functionality

Grounding and short-circuit equipment for tramways. It has a PC clamp that allows the grounding connection of the lines for repair works.

CODE	MODEL	Max. Icc
666160	PATF-PD/05007-TTIR	12 kA/1s
666161	PATF-PDC/07007-TTIR	19 kA/1s

PATF-PDC-TTIR

Unipolar equipment for catenaries

Product Features

Integrated grounding equipment for underground tramway rails. It is equipped with a PDC clamp which allows the grounding connection of the lines for repair and maintenance works.

Product composition

- 1 PDC clamp made of aluminum alloy with screw clamping and bayonet shaft for cylindrical conductors with a diameter between 12 and 27 mm.
- 1 copper cable with PVC insulating sheath, 50 mm² or 70 mm² (depending on the model), 7 m long.
- 1 TTIR grounding winch.
- 1 bag for transport and storage of the equipment.

Certificates

Complies with **IEC 61230**: Live working - Portable earthing or earthing and short-circuiting equipment.
