

Earthing & Short Circuit Protection Equipment

Safety

Low voltage electric panels

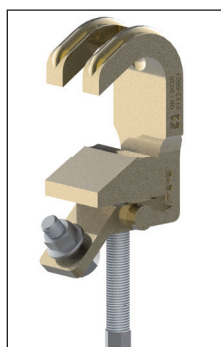

659 ECBT-4-MPUHL

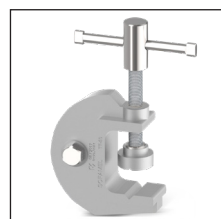

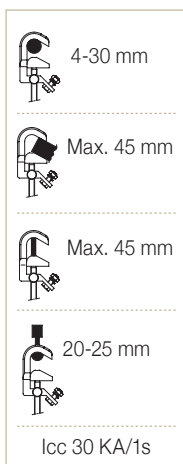

Earthing and short-circuit equipment for low voltage electric panels. The main aim for its installation is operator's protection against an accidental commissioning or possible voltage return during repair operations.

The MPUBT/H clamps for low voltage are perfect to be fixed on flat bars.

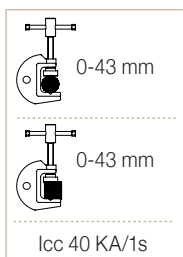

According to IEC 61230 standard.

MPUH-L
Low voltage clamp

TT-50
Earthing lathe

Composed of:

- 4 MPUH-L aluminium alloy clamps with screw tighten.
- 1 insulated grip with polyvalent head.
- 3 copper cables with PVC insulation of 120 mm² section and 0.6 m long.
- 1 copper cable with PVC insulation of 120 mm² section and 2 m long.
- 1 TT-50 milling earthing lathe.
- 1 plastic case to store and transport the equipment.
