## Safety

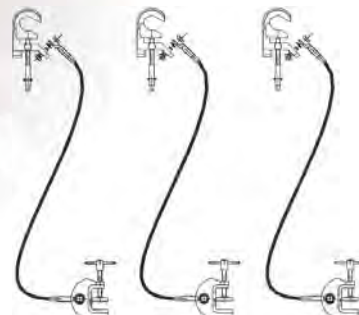

High voltage versatile - Aluminium cable

### 30908 PAT-AL-3/MPL

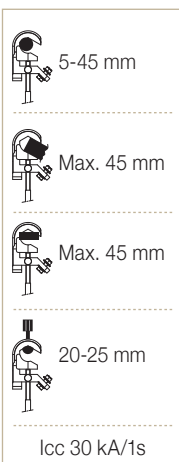

Earthing and short-circuiting equipment for overhead lines and high-voltage substations.

The main aim for its installation is operator's protection against an accidental commissioning or possible voltage return during repair operations.

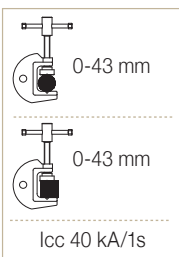

According to IEC 61138 standard.

#### Composed of:

- 3 MPL aluminium alloy clamps with screw tighten for cylindrical conductors with diameter between 6 and 45 mm.
- 3 **aluminium** cables with PVC insulation. Section and length depending on model.
- 3 TT-50 milling earthing lathe.
- 3 nylon bags to store and transport the equipment.
