Product Technical Specifications

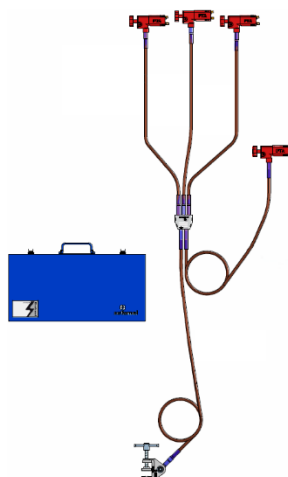

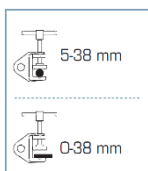

ECBT-PTA4

Earthing and short-circuit equipment
– Low voltage electric panels

Functionality

Earthing and short-circuit kit for low-voltage distribution boards. The main reason for their installation is to protect the worker from accidental power-on or return of voltage during repair work.

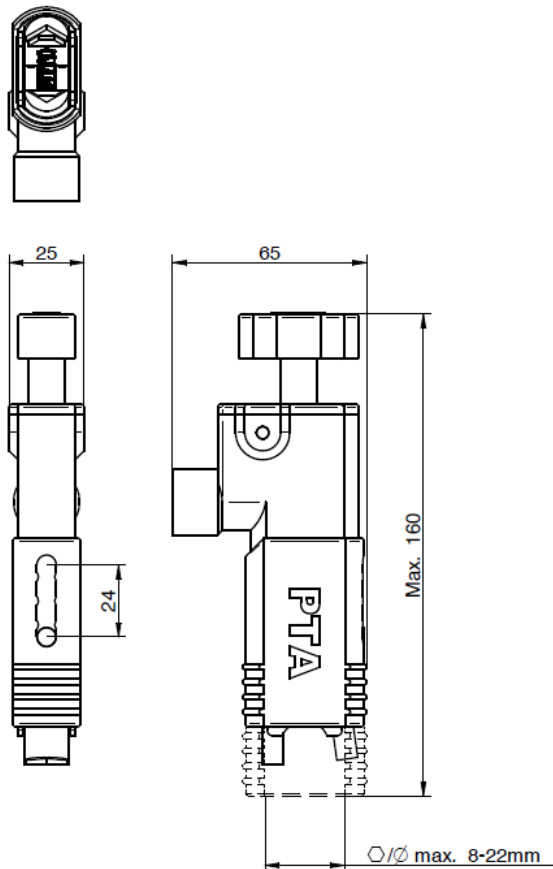

ECBT-PTA4

Earthing and short-circuit equipment – Low voltage electric panels

Product Features

The isolated PTA clamps are used to ground the electrical panels. These clamps can cover an opening distance of between 8 and 22 mm, hexagonal and cylindrical sections.

Composed of

- 4 insulated PTA earth clamps and the neutral.
- 3 copper PVC-insulated cables 25 mm² section and 1,2 m long for short circuit of phases.
- 1 copper cables 25 mm² section and 1,5 m long for the neutral's earthing.
- 1 PVC-insulated cable 25 mm² section and 2 m long for earthing.
- 1 branch-joint connector (5 cables).
- 1 TT-38A earthing lathe.
- 1 metal case for storage and transport.

Certified

According to the Standard **IEC 61230**.
