Technical specification of the product

## Modelo SAE-400

Signaling beacon for cables

### Functionality

Bacon daytime wiring signaling beacon for indication and warning to aircraft and for accident prevention. The signage beacon is made of polyethylene with fiberglass and with high resistance to UV rays. Designed with low aerodynamic coefficient, and with accessories that allow quick assembly and adjustment, even from a helicopter. The SAE-400 beacon can be installed in tensioned cable, guard cables and fiber optic cables.

### Product characteristics

- Exterior dimensions: 400 mm diameter.
- For cables from 9 to 30 mm in diameter.
- Available colors: RED-WHITE / RED-RED.
