### Insulated Tool Kit

The **QUICKFIT-15 TC kit** is a set of insulated tools certified for work on electrical installations up to 1000V, in compliance with IEC 60900 standards. Designed to provide safety and efficiency in maintenance and assembly tasks in electrical environments.

The kit includes a selection of wrenches, sockets, and extensions designed to facilitate access to fasteners and connections in confined spaces. It comes in a high-resistance hard case with pre-cut technical foam for proper organization and protection of the tools.

#### ■ Contents:

**T-handle insulated wrench for 3/8" socket – Ref. LVT-210**  
Dimensions: 158 x 210 mm  
Material: Chrome vanadium steel with PP/TPR safety insulation.

**Insulated ratchet wrench for 3/8" sockets – Ref. LC-3/8**  
Dimensions: 38 x 61 x 198 mm  
Ratchet mechanism for work in confined spaces.

**Insulated extensions for 3/8" ratchet – Ref. EL-3/8**  
Lengths: 142 mm and 267 mm (codes 125 and 300)  
Facilitate access to hard-to-reach areas.

**Set of 3/8" hex/female insulated sockets – Ref. 410085**  
Sizes: 8, 10, 13, 14, 17, and 19 mm  
Dielectric insulation to prevent electrical arcing.

**Insulated Allen sockets 3/8" – Ref. LVA-4, LVA-5, LVA-6 and LVA-8**  
Sizes: 4, 5, 6, and 8 mm  
Designed for electrical systems up to 1000V.
