Product Technical Specifications

## Mod. CP700EC

Hydraulic pump

### Functionality

Designed to operate hydraulic tools up to 700bar (79MPa).

### Product Features

- Lightweight, compact and robust structure.
- Ergonomic design for both left-handed and right-handed users.
- Manual or automatic return.
- Fast piston return, thanks to its high return capacity.
- Pre-installed standard programs for cutting and lathering.
- Electronic sensor pressure control.
- High performance lithium-ion battery.
- Battery charge indicator.
- Dual piston technology for fast high-pressure power supply.
- Flow range at low pressures <100 bar: 1.2 lit./min.
- Pressure flow range up to 700 bar: 0.2 lit./min.
- Operating pressure: 700 bar (70 MPa)
- Power: 200 W
- Battery voltage: 18.0 V DC
- Battery capacity: 3.0 Ah
- Range of use: -20oC / +55oC
- (integrated cooling system).
- Remote control (1.5 m) two buttons and LED indicator.
- Possibility to attach the remote control to the device.
- Error indication.

# Model CP700EC

## Hydraulic pump

### SET equipment

- Compact hydraulic pump
- Battery: Li-ion 18V 3Ah (RA11)
- Battery charger (LG8)
- Flexible high-pressure hose (1, 5m)
- Remote control (1, 5m)
- Carrying shoulder strap with shoulder pads
- USB cable
- Comfortable sturdy nylon bag
- Software (CD)
