### 11301 Earthing rods

100 or 300 microns

Designed for fixed installations, these earthing rods are used to create a safe and stable earthing connection in electrical systems. They are manufactured from calibrated steel with an electrolytic copper plating treatment of 100 or 300 microns. The 100 $\mu$  rods with a diameter of 14.2 comply with UNE 202006 standards and have  AENOR certified.

#### Earthing rod 100 $\mu$ - $\varnothing$ 14.2 mm

Code	Ref.	Dimensions		 Bag	 Box	 Pallet
		L	D			
T101415	Earthing rod 100 $\mu$ - $\varnothing$ 14.2 Length 1.5 m	1.5 m	14.2 mm	10	100	400
T101420	Earthing rod 100 $\mu$ - $\varnothing$ 14.2 Length 2.0 m	2.0 m	14.2 mm	10	100	400

#### Earthing rod 100 $\mu$ - $\varnothing$ 18.2 mm

Code	Ref.	Dimensions		 Bag	 Box	 Pallet
		L	D			
T101820	Earthing rod 100 $\mu$ - $\varnothing$ 18.2 Length 2.0 m	2.0 m	18.2 mm	5	100	400

#### Earthing rod 300 $\mu$ - $\varnothing$ 14.6 mm

Code	Ref.	Dimensions		 Bag	 Box	 Pallet
		L	D			
T301420	Earthing rod 300 $\mu$ - $\varnothing$ 14.6 Length 2.0 m	2.0 m	14.6 mm	10	100	400
