

Connections / Shear head bolt connectors

10202 BTF

Bimetallic cable lug

BTF cable lugs are manufactured from high conductivity aluminium. Shear head bolts are designed to be broken by suitable torque as per conductor section, being perfectly flush against the connector wall. 15 µm tinned surface finish giving a greater protection against corrosion.

Code	Ref.	Section (mm ²)	Strip length	 M	 22	Dimensions (mm)								 x 100	 Bag	 Box
