

10404 TDC/S KIT

Insulated bimetallic terminal

The kit consists of:

- TDC/S terminal manufactured from aluminium bars with a purity of 99.5% or higher, featuring an electrolytic tin-plated surface finish. It complies with UNE 211024-2 and holds the AENOR  certification.
- Insulating cover made of synthetic rubber.
- Phase or neutral identification rings.
- Connection washers.
