

Product Technical Specifications

M
Cabezal Métrico-10

U
Cabezal Universal

B
Cabezal Bayoneta

P
Cabezal Polivalente
(Hexagonal + Métrico-10)

Mod. BMAI Connectable Poles

Functionality

The connectable poles have the function of safeguarding distances of electrical work. These poles have a fixed length but with two sections. With them the operator can make the detection and earthing (voltage detector and earthing equipment is required) at a safe distance.

Product Features

Connectable pole, composed of two sections made of polyester and fibreglass tube \varnothing 32 mm with humidity-proof seals on each end, hand protector, grip, tip, and M (Metric-10), U (Universal), B (Bayonet) or P (Hexagonal + Metric-10) head. Indoor and outdoor use in dry environment

Mod. BMAI

Connectable Poles

Raw Material Features

Insulating tube: **made of polyester and fiberglass.**

Blocking handles: **polyamide PA66-GF30.**

Screw: **stainless steel.**

Certified

Manufactured following the established by Standard **UNE-EN 50508** - Points **4.2, 4.3, 4.4** (in dry conditions) and **4.5**. Multi-purpose insulating sticks for electrical operations on high voltage installations.

Electrical Features

Ref.	Length	Working voltage
BMAI-2	2 m (2 sections of 1 m)	66 kV
BMAI-2,5	2.50 m (2 sections 1 + 1,5 m)	110 kV
BMAI-3	3 m (2 sections of 1,5 m)	132 kV
