Product Technical Specifications

Mod. BMAI Connectable Poles

Functionality

The connectable poles have the function of safeguarding distances of electrical work. These poles have a fixed length but with two or three sections. With them the operator can make the detection and earthing (voltage detector and earthing equipment is required) at a safe distance.

Product Features

Connectable pole, composed of two or three sections made of polyester and fibreglass tube Ø 40 mm with hand protector, grip, tip, and M (Metric-10), U (Universal), B (Bayonet) or P (Hexagonal + Metric-10) head. Indoor and outdoor use in dry environment

M
Cabezal Métrico-10

U
Cabezal Universal

B
Cabezal Bayoneta

P
Cabezal Polivalente
(Hexagonal + Métrico-10)

Mod. BMAI

Connectable Poles

Raw Material Features

Insulating tube: **made of polyester and fiberglass.**

Blocking handles: **polyamide PA66-GF30.**

Connector: **anodized aluminum.**

Screw: **stainless steel.**

Certified

Manufactured following the established by Standard **UNE-EN 50508** - Points **4.2, 4.3, 4.4** (in dry conditions) and **4.5**. Multi-purpose insulating sticks for electrical operations on high voltage installations.

Electrical Features

Ref.	Length	Working voltage
BMAI-3V	3 m (2 sections of 1.5 m)	132 kV
BMAI-4V	4 m (2 sections 2 m)	220 kV
BMAI-5V	5 m (2 sections of 2 m + 1 section of 1 m)	380 kV
BMAI-6V	6 m (3 sections of 2 m)	380 kV
