Product Technical Specifications

Mod. HS25

Hydraulic cutting tools

Technical Characteristics:

- Light and compact structure
- Cutting head with snap closure and blade guide; rotates 360°
- Quick feed with double hydraulic cylinder
- Automatic pressure safety valve
- Manual return in any position

Product features

Tool dimensions: 165 x 393 x 54 mm

Tool weight: 2,9 kg

Set Equipment:

- Manual hydraulic cutting tool
- Plastic case

Model HS25
